

Billing and Insurance

Insurance Plans: Our facility accepts most major commercial insurance, HMO/PPO plans, and Medicare. Your costs will depend on your insurance coverage. Although we are contracted with many insurance companies, ours may not be within your network and you may be responsible for additional fees than with that of a contracted facility.

Although it is your responsibility to be aware of your insurance coverage our office will contact your insurance company to verify benefits and eligibility. Any Co-pay and/or deductible are due at the time of service. We accept cash, debit cards, Visa, Mastercard, American Express and discover.

Billing: While we are pleased to assist you with your insurance, the obligation for payment of our fees remains that of the patient or responsible party.

Please understand that there are three components to your services and you will receive a separate bill for each service provided. These include:

1. **Physician Services for the procedure/s performed.** (This does not include office visits.)
2. **Facility Services**
3. **Pathology Services** (In the event a specimen is obtained.)

Please contact us if you have any questions regarding your insurance coverage. We will do our best to keep you informed and encourage you to communicate with us on any questions, concerns or misunderstandings with your account. Our facility billing number is 951-256-4360.
